SUMMARY

My professional goal as a student of Information Technology is to land a job that makes use of my abilities and enthusiasm for technology. With a genuine and diligent approach, as well as flexibility and attentive listening skills, my goal is to make a beneficial impact on the company. Strong in Front- End Web Development, Android Studio with Flutter for Frontend, python. I'm dedicated to ongoing education and taking on difficult assignments. In addition to doing a great job in my position, I want to contribute to the expansion and prosperity of the business to ensure a win-win collaboration.

PROJECTS

personal-portfolio

📍 VADODARA

- Developed a personal portfolio website using HTML, CSS, and JavaScript to showcase my projects, skills, and experience. Implemented responsive design for optimal viewing on various devices, and created an intuitive and visually appealing user interface.

Smart attendance capturing system for employee

📍 VADODARA

- Designed and developed an application using flutter (android studio). Common technologies used include biometrics for face recognition and geolocation for location tracking. Employees check in and out using these methods, and the system records the time and date.
